MEMORANDUM TO MEMBERS OF THE SPECIAL PROJECTS STAFF.

Mr. Rockefeller would very much appreciate it if the Special Projects Staff would come up with suggestions concerning the coming Big Four meeting—referred to as the "Summit Conference." He did not specify exactly what he is groping for in placing this request in the Special Projects Staff, but I would appreciate it if the members of the Special Projects Staff could come up with whatever ideas they might have for discussion with me at 10:30, Thursday morning in my room, at which time we might be able to thrash out an outline or something useful to take to Mr. Rockefeller for further discussion. He has again expressed the desire to meet with us soon. This subject might be a very useful opener for our first conference with him.
